

Same Old War

[0:00] – Intro

[0:19]

[0:32] – V1

I've been fighting the same old war, against a disease without a cure
Been holding on for so long (for so long, for so long)

[0:45] I've been wishing upon a star, as my universe falls apart
I feel so far from the sky, as my dreams are flying by

[0:58] – PC

And they say it's a battle that can't be won
We need our knives, we need our guns

[1:10] – C

Should I run away and change my name?
Or should I stay and fight through the night

[1:23] And never close my eyes?
I'll never close my eyes

[1:37] – V2

I've come too far to go back now, to turn into a face in the crowd
Been on this road for so long (for so long, for so long)

[1:50] Convinced there is no way out, my world is turned upside down
My sense of direction's been gone for so long, for so long

[2:03] – PC

And they say it's a battle that can't be won,
We need our knives, we need our guns

[2:16] – C

Should I run away and change my name?
Or should I stay and fight through the night

[2:28] And never close my eyes?
I'll never close my eyes

[2:43] – B

Stay strong, keep moving, Can't let the darkness blind us
Carry on, we'll be the ones, That pull the stars down to us
[2:56] Stay strong, keep moving, Can't let the darkness blind us
Carry on, we'll be the ones, That pull the stars down to us

[3:09] – Interlude

[3:21] – C

Should I run away and change my name?
Or should I stay and fight through the night
[3:33] And never close my eyes?
I'll never close my eyes (I'll never close my eyes)

[3:48] – Outro

[4:01] – End
